

Environmental Policy

First Choice Equipment Ltd., trading as Resolve and its staff will operate at all times showing due regard to global and local environmental considerations and issues. Resolve will therefore conduct itself in such a manner so as to improve the environment or ensure that its operation minimises impact there on. Employees will observe policies in force at sites visited in the course of their duties.

Resolve will therefore:

- Ensure that the daily operation of Resolve does not constitute a nuisance to others.
- Correctly use equipment and facilities provided to ensure the safe and correct handling and disposal of materials and waste products where practical (i.e. recycling & re-using)
- Ensure safe disposal and/or recycling of chemicals, liquids, solids and gases in accordance with good operating practices.
- Ensure staff involved in the assembly and/or handling of products to be used in a food environment maintain the highest standards of personal and operational tidiness, cleanliness and general health and hygiene so as not to introduce a health and safety hazard to the environment.
- Promote correct environmental awareness and general encouragement for staff to raise issues of concern and make recommendations and offer ideas to the Management to improve Resolve's performance.

In addition, all employees will, at all times, observe the environmental policies and instructions issued by competent, recognized authorities when visiting customer sites and premises. If however, such instruction appears to contradict with Resolve's policy, common good sense or create a potential environmental or safety hazard, staff are instructed to refer to Resolve's board of Directors or Managers for advice before proceeding.

This policy is ongoing and will only be subject to change if completely necessary.

Signed & dated on behalf of Resolve.

Matt Hamill, Director
